deb07beme.com or 0411 770 552
Cost \$40 pp.

. Meeting 1406 Wednesday 23 May 3018

Quote; Life is not a fairytale; If you lose your shoe at midnight, You're probably drunk.

By now another **Careers Expo** is over and I'm sure another very successful event staged by your club. **Thanks to Marina** and her team for organising things again this year. We had a large number of participants, some new ones and 1600 children attending so that's certainly a major exercise, well done. Just another way we help the community, not in quantifiable dollars perhaps but a great community event for our young adults.

It was good to catch up with a few fellow Rotarians at Kaisa's farewell dinner at the PO hotel last Friday. **Let's try and make it a regular thing on the third Friday of the month.** Maybe leave your usual drinking hole and venture to the PO to support the pub that supports us.

Louise will be stepping in for me as of next Wednesday, whilst I venture to Espana. I will be back for changeover and looking forward to handing over to John Worldon to have a go. It's certainly been an experience to get me more involved in Rotary and test my time management skills!!

Safe travels to others heading off as well, it seems every second person is taking a trip at the moment.

Adios Amigos
Michael Smith.

I don't think I've ever heard the concept explained any better than this .

'Well you see, Norm, it's like this . . . A herd of buffalo can only move as fast as the slowest buffalo. And when the herd is hunted, it is the slowest and weakest ones at the back that are killed first. This natural selection is good for the herd as a whole, because the general speed and health of the whole group keeps improving by the regular killing of the weakest members. In much the same way, the human brain can only operate as fast as the slowest brain cells. Now, as we know, excessive intake of alcohol kills brain cells. But naturally, it attacks the slowest and weakest brain cells first. In this way, regular consumption of beer eliminates the weaker brain cells, making the brain a faster and more efficient machine. And that, Norm, is why you always feel smarter after a few beers.'

FUTURE PROGRAM.

- MAY** 23 Dr Kym Rae
- 30 Paul Crosby Personal Profile
- 26 District Assembly at Gunnedah
- JUNE** 6 Naomi Blakey Personal Profile
- 16 Change over Dinner

Visitors	nil		
Heads & Tails	skinner		

The Object of Rotary

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

- **FIRST.** The development of acquaintance as an opportunity for service;
- **SECOND.** High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying of each Rotarian's occupation as an opportunity to serve society;
- **THIRD.** The application of the ideal of service in each Rotarian's personal, business, and community life;
- **FOURTH.** The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

Rotary Grace

O Lord and giver of all good
We thank Thee for our daily food
May Rotary Friends and Rotary ways
Help us to serve Thee all our days

The Four-Way Test

Of the things we think, say or do

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?

Tamworth—First Light
