The Science and Engineering Challenge Dinner

Marina's 2 cents worth

Congratulations and well done to the Science and Engineering Committee. You can breath a sigh of relief that it all came together and the event has been a success once again. A couple of months of turmoil over whether it went ahead, and even up to on the day, it was still unknown which students and schools may or may not be able to attend. \$13,000 in sponsorship was secured. The dinner was a fantastic night, lovely to be able to mingle so freely (still with a hint of caution though) and just be able to enjoy something social. We had a lot of fun trying to create circular flying objects with straws and paper - a few competitive souls amongst us.

Conference is on this weekend. I am looking forward to celebrating all that has been District 9650 and meeting new Rotarians, finding out what they focus on in their clubs. It does help that it's on the Coast.

Don't forget, Waste Warriors is on next Friday 25th and our Tree planting day is 3rd of April. The Careers Expo is going ahead on May 18 - registrations are open on the webiste www.nwrce.org.au

Stay positive.

CONDOMS

Labor is proud to announce that our NEW party symbol is **CONDOMS** because they more accurately reflects our party's stance. A condom allows for inflation, halts production, destroys the next generation, protects a bunch of dicks and gives you a sense of security while you are being screwed.
